**NOTICE OF HEARING**

**A PUBLIC HEARING WILL BE HELD** before the Arizona Power Plant and Transmission Line Siting Committee (the "Committee") regarding the Applications of Arlington Valley Solar Energy, LLC, and Arlington Valley Solar Energy II, LLC, respectively, (collectively, "Applicants") for Certificates of Environmental Compatibility ("CEC") authorizing construction of: (1) the **AVSE Project** solar generating facility and associated gen-tie transmission line and switchyard facilities; and (2) the **AVSE II Project**

1 solar generating facility and associated gen-tie transmission line and switchyard facilities (collectively, the  
2 "Projects".)

3 The hearing will be held at the Hampton Inn, located at 2000 N. Litchfield Rd., Goodyear, AZ 85395,  
4 Telephone: 623-536-1313. The hearing will begin on Tuesday, January 26, 2010, at 9:30 a.m. and, if  
5 necessary, continue on Wednesday, January 27, 2010, at 9:30 a.m. The hearing will adjourn at  
6 approximately 5:00 p.m. on each day. Additional hearings, if necessary, will be noticed on the Projects'  
7 and Arizona Corporation Commission's ("ACC") websites.

8 The website for the AVSE and AVSE II Projects is: [www.avsepublic.com](http://www.avsepublic.com)

10 **PUBLIC COMMENT MAY BE TAKEN AT THE DISCRETION OF THE CHAIRMAN DURING**  
11 **THE HEARING. PUBLIC COMMENT WILL BE TAKEN IN A SPECIAL EVENING SESSION**  
12 **ON TUESDAY, JANUARY 26, 2010, BEGINNING AT 6:00 P.M., AT THE HAMPTON INN,**

17 parking lot at the time of commencement of the tour, if conducted. Members of the public may follow the  
18 Committee on the tour in their own private vehicles. During the tour the Committee may hear brief  
19 testimony at stops on the tour from one or more witnesses concerning where the stops are located, what is  
20 visible at the stops and the relevance of the location and view to the facilities in the Applications. No other  
21 discussion or deliberation concerning the Applications will occur during the tour. A court reporter or  
22 recording device will record any testimony taken on the tour for transcription.

26 **HEARING WILL BE GIVEN; HOWEVER, PUBLISHED NOTICE OF SUCH RESUMED**  
27 **HEARING IS NOT REQUIRED.**

Applicants are seeking separate CECs for each of the two Projects. However, because the two Projects are  
so similar in size, design, geography and environmental impacts, the two cases and Projects will be  
consolidated for Committee hearing purposes in the interest of judicial efficiency for the Committee.

Each of the AVSE and AVSE II Projects will consist of an up to 125 MW solar generating facility with its  
own associated on-site switchyard and separate new 115 kV gen-tie transmission line, interconnecting with  
a single new 115/500 kV Switchyard and a short 500 kV gen-tie transmission line, common to both  
Projects, interconnecting to the existing Hassayampa 500 kV Switchyard. Each of the AVSE and AVSE II  
solar generating facilities will utilize either parabolic trough concentrating solar thermal technology  
("CSP") or photovoltaic solar technology ("PV"). If CSP technology is used, either or both of the Projects  
might also incorporate equipment to provide generating capability during limited peak electric demand  
hours when the sun isn't shining, using either (a) thermal salt heat storage and recovery equipment or (b)  
natural gas co-firing equipment. Each Project's generating facility may be constructed in phases, and will  
have a design maximum peak generating capacity of up to 125 MW.

The Projects are proposed to be located in rural Arlington Valley, south of Elliot Road, west of 355<sup>th</sup> Avenue and east of 395<sup>th</sup> Avenue, in Township 1 South, Range 6 West, G&SRB&M, Maricopa County, Arizona. The below two maps identify the proposed sites for, respectively, the AVSE and AVSE II solar generating facilities and the proposed potential corridors for the associated gen-tie transmission line and switchyard facilities.

Additional detailed maps of the Projects sites and detailed information about the proposed facilities and technology are contained in the full Applications, which are available for inspection at the following locations:

- Docket Control Center of the ACC Phoenix Office at 1200 West Washington Street, Suite 108, Phoenix, AZ 85007
- Arlington Elementary School, 9410 South 355<sup>th</sup> Avenue, Arlington, AZ 85322
- Buckeye Public Library, 310 North 6<sup>th</sup> Street, Buckeye, AZ 85326
